CURRICULUM VITAE

EXPERIENCE

Data Management Analyst II, 2017 -

UF Health Cancer Center -- Clinical Trials (Core Office)

Developed and tracked various institutional metrics to track the progress of the UF Health Cancer Center towards NCI-designated status. Leveraged knowledge of Sharepoint to help implement several process improvements on behalf of Cancer Center stakeholders.

Data Manager, 2015 - 2017

UF Health Cancer Center -- Clinical Trials (BMT Office)

Pursued research excellence in a variety of roles. Primary duties include data entry, sample processing/shipment, lab maintenance, record keeping, and miscellaneous support tasks.

Implemented process improvements relating to the scheduling of research visits to Investigational Drug Services. Worked with Cancer Center management and other staff to create a Sharepoint Calendar to put these process improvements into practice.

SKILLS
